Ludvig Grenmo
Front end developer

Front end developer
We Ahead

June 2022 - Current, Stockholm

Implementing earlier experience in building wep apps including NextJS, contentful CMS, e-commerce and CI/CD

EXPERIENCE

Front end developer
Osynlig, internship

Nov 2021- April 2022, Stockholm

This is where i learnt the most. My team helped me in being humble to the project, being thorough, writing structural code and how to make it more efficient. I gained experiance in Next, Angular 13 and Svelte. Did some wordpress too.

Front end developer
Konceptify

Feb 2021 - November 2021, Stockholm

Helped a tech startup with building their app design and coded/designed their website. Very rewarding in working with a real project and as a solo developer on the company i had to deal with issues on the fly and learn the hard way.

On trade manager
Stockholms Bränneri Gin

April 2019 - Present - 3 year, Stockholm

Responsible for all customers within the bar and restaurant industry. A mix of marketing, sales and building brand. Gained confidence in speaking with clients and customers .

Education
Front end developer program
KYH Higher educational school
2020 - 2022, Stockholm
